

Duplicated references with different prices:

1CCPS05B08--	Duplicated and Different Price:	900	1280
1CCPS10B08--	Duplicated and Different Price:	3582	930

1CCTY13B10-	Duplicated and Different Price:	3380	1370

I revised the coding
duplicated cost should be solved.

Why do they end with "--" or "-"?

1CCPS05B07--
5CCPS32G07--
1CCPS30B07--

1CCAR01F22--

not quite sure,
but i think they tend to code with 12 Digit
so that's why there's 1 dash or 2 dashes

Two references at one line, which one may/should we use?

"1CCBM32G20--1CCBM32G203-"
"1CCBM32G201-1CCBM32G202-"
"1CCBM32G204-1CCBM32G205-"

"1CCBZ15F153LR1CCBZ15F155LR"
""1CCPS05B081R/L1CCPS05B08--"

they put different color / different finish
in the same space, so that's why there are 2 codes
in each box.
I have update the listing.
it should clarify now.
